Topic ideas

Large and familiar topics are easier. The more specific or unfamiliar a topic is, the more challenging it is. What's difficult for me may be easy for you. Feel free to come up with your own topics!

Tips: Search your memory first. Try to imagine different places where you might find answers and "see" if you can remember.

If you're stumped, ask for a hint or look around your house or online for inspiration. It's better to get a hint than to be given the answer.

If you had trouble filling out the grid, review your answers and then try re-doing the page again later.
